THIS IS ME!

- D** Quickly read the text below. What information from the headings in C does it give about the girl?

Lucky Mbele

Lucky Mbele is a 10-year-old high school student. She lives in Cape Town, in South Africa. She is brilliant at drawing and painting, and her dream is to be a well-known artist in the future. She loves nature and her paintings of the sea and the forest are incredible.

Lucky has some close friends. When she isn't busy with her art, she spends time with her friends after school and at the weekend. 'We go to the beach in the summer and we swim. We love sport. In the winter, we play football and basketball. We also play cricket. Cricket is a popular sport in South Africa, England, Australia, New Zealand and India, but I don't think people play it in a lot of European countries! My friends and I also like the cinema and we go to cafés, too, just to hang out

together. But I always make sure that I have time for my painting.'

Lucky sells her paintings in crowded street markets. Tourists buy them because the paintings are about South Africa, and they are good souvenirs to have from their holiday.

'One day, when I am famous, I want to see my paintings in galleries all around the world!'
